enhance your home style & comfort

One of the most important factors when building a home is to make it stylish and secure so that it protects your family from the elements and environmental noise.

Rafitto Aluminium gives you 100% German design with quality and standards you have come to expect, strength, durability and low maintenance. Our Aluminium profiles use EPDM, which has heat, ozone and weather resistance properties.

In addition, our locking mechanisms and handles are top branded Italian and USA designs from GIESSE and HOPO, guaranteed for long lasting smooth and secure operation to keep your home and family safe
